

SOFA FACTORYTM

THE COMPLETE LIVING SOLUTIONS PVT. LTD.

HOME RANGE CATALOGUE

#startupindia

A close-up photograph of a purple, tufted leather surface, likely a piece of furniture or a bag. The image shows two circular buttons or tufts, one in the upper right and one in the lower left, creating a symmetrical, diamond-like pattern. The lighting is soft, highlighting the texture of the leather and the shadows between the tufts.

**ITS ALL ABOUT

ABOUT US

THE BEST MANUFACTURING COMPANY IN INDIA

A reputable and well-known furniture store company, Sofa Factory The Complete living solutions Pvt Ltd, focuses on offering customers high-quality furniture at reasonable prices.

Hardly anything makes us happier than making it simple for our people to feel at home, therefore giving our customers superior service, quality, and ethics is our top priority.

By creating the actual layout for your ideal furniture collection, we want to give it an authentic appearance.

Designing Ergonomic Products

We have consistently tried to produce ergonomic designs with the proper product mix that are developed for the suitability and comfort of the end users since we recognize the significant shift in work culture in recent years.

Resilience & Safety

Our ability to deliver solutions that improve the quality and longevity of our goods built from premium safe materials is a result of continuous innovation and technological assistance.

Comfort Comes First

In order to lessen fatigue and discomfort and improve health, Sofa Factory, a leading furniture maker in India, has incorporated fresh thoughts and ideas into its product designs for reputable corporations over the past few decades.

Customer Service

Our high-quality furniture is available at competitive costs, with quick customer service and the best options.

Every product creation at our company is seen through the lens of function, practicality, effectiveness, ergonomics, comfort, and value. We distinguish ourselves from our competitors in this way. And for this reason, we have established ourselves as a leading furniture maker in India among furniture dealers and distributors.

CEO'S DESK

We have worked in the building material and interior design industries for the past two decades. We have experience in the plywood and laminates sector—the industry of particle boards. We intend to include setting up and running retail outlets and working in the ready-made furniture and tiles industries. A budget-tight person or a Common Man generally finds it hard to get a product at a low price or even one that is relatively attractive and rich in appearance.

Another important finding from our research is that most Indian market consumers come from both the Elite and Non-elite Classes. We have carefully and thoroughly examined the core issues. We have viewed the problem as a huge opportunity. We work at the best to achieve our mission of providing our premium products at reasonable prices. We are confident that no one will be able to defeat us as we have all premium quality products to pull off this marvel and conquer this expanding market. To make this possible, we have worked on several fronts. Large-scale production is what we do, along with direct sourcing from manufacturers across India of the finest and highest-quality raw resources. Our margins have been kept very low. In the process of developing the tagline, "Huge Quantities with Reasonable Margins." Since we have worked extremely hard to walk in the right direction, we can provide you with a premium product that is now inevitable and specific. Our products are antique, minimal and luxurious. They can fit into your budget with the styling era as well. With a refined and creative brand image both domestically and overseas, our products can provide the best quality service to all visitors who have made luxury and neoclassical style a vogue in home decor. You can fully appreciate our efforts and hard work when browsing our product line and retail prices.

Your gratitude and pleasure will be our teams and our significant accomplishment, and it will give us more confidence to work harder and provide you with everything we have. Growing Numbers of High-Quality Goods at Reasonable Prices for decorating Homes is Our Vision and Mission, along with Creating Relationships.

We believe in such quality that can provide you with the complement of satisfaction.

You imagine, **WE BUILD**

Everything **CUSTOMIZATION**

There are countless elements that make you uniquely you and we love helping you express your identity through our highly customizable collection. Not just sofas, we can change the size, configuration, colors and materials of nearly every design. It's about helping you truly personal home that matches your style, Budget and the way you live. So more than 80% of our collection can be altered for size, components, color or material from a sofa's legs and armrests to the size of your dining table from the configuration of your new wall system to recreating your dream bedroom. It's a modern & unique design concept making bespoke storage units, custom sofas & your personal furniture solution possible.
